

Multimedia: Video Production COA
Multimedia: Video Production Associate Degree

Explanation of minor Program Modification:

BOTH the AA and Certificate in this area are making the following changes to align with CSU Transfer and Industry standards.

1. We are adding Journalism 100 which is an existing course our District and at LAMC that students need as an undergrad requirement for transfer to CSU
2. We are adding the new course, which has been approved at LAMC, Multimedia 605. This is a lower division requirement at 4 of the CSUs in Film/TV. It is Studio Production.
3. We are adding 2 existing District courses, Cinema 107 and Cinema 125. These meet lower division requirements at the CSUs and UCs for Film/TV and they are also crucial for preparing students in the industry.
4. We are moving 3 courses into two “option” areas of the degree and certificate depending on which professional pathway a student wants to focus on.

All units are the same, Name of Programs are the same...
