The Los Angeles Center of Excellence for Labor Market Research (LA COE) prepared this report to provide regional labor market supply and demand data related to one middle-skill occupation:

- **Coaches and Scouts (27-2022):** Instruct or coach groups or individuals in the fundamentals of sports for the primary purpose of competition. Demonstrate techniques and methods of participation. May evaluate athletes’ strengths and weaknesses as possible recruits or to improve the athletes’ technique to prepare them for competition. Those required to hold teaching certifications should be reported in the appropriate teaching category.¹

Middle-skill occupations typically require some postsecondary education, but less than a bachelor’s degree.² Although the occupation *coaches and scouts* typically requires a bachelor’s degree, it is considered middle-skill because at least one-third of workers in the field have completed some college, no degree/associate degree or less. This report is intended to help determine whether there is demand in the local labor market that is not being met by the supply from community college programs that align with the relevant occupation.

Based on the available data, there appears to be a supply gap in the region for *coaches and scouts*. Although the entry-level wage is below the self-sufficiency standard wage in both Los Angeles and Orange counties, at least one-third of current workers in the field have completed some college, no degree/associate degree or less. **Therefore, due to some of the criteria being met, the LA COE endorses this proposed program.** Detailed reasons include:

¹ [Coaches and Scouts \(bls.gov\)](https://www.bls.gov)

² The COE classifies middle-skill jobs as the following:

- All occupations that require an educational requirement of some college, associate degree or apprenticeship;
- All occupations that require a bachelor’s degree, but also have more than one-third of their existing labor force with an educational attainment of some college or associate degree; or
- All occupations that require a high school diploma or equivalent or no formal education, but also require short- to long-term on-the-job training where multiple community colleges have existing programs.

Demand:

- **Supply Gap Criteria** – Over the next five years, **1,477 jobs are projected to be available annually** in the region due to new job growth and replacements, **which is more than the three-year average of 178 awards conferred** by educational institutions in the region.
- **Living Wage Criteria** – In Los Angeles County, the **typical entry-level hourly wage** for *coaches and scouts* is **\$15.64, which is below the self-sufficiency standard wage** for one adult in the region (\$18.10 in Los Angeles County).³
- **Educational Criteria** – The Bureau of Labor Statistics (BLS) lists a **bachelor's degree** as the typical entry-level education for *coaches and scouts*.
 - National-level educational attainment data indicates that **34% of workers in the field have completed some college, no degree/associate degree or less.**

Supply:

- Between 2018 and 2021, **seven (7) community colleges** in the greater LA/OC region issued awards in coaching programs, conferring an average of **19 awards**.
- Between 2017 and 2020, non-community college institutions throughout the greater LA/OC region conferred an average of **159 awards in relevant programs**.

Job Postings

Over the past 12 months, there have been 2,063 online job postings related to *coaches and scouts*. The highest number of job postings were for coaches, soccer coaches, group instructors, volleyball coaches, and gymnastics coaches. The top skills were cardiopulmonary resuscitation (CPR), use of automated external defibrillator, marketing, physical education, and working with children. The top employers, by number of job postings, in the region were YMCA, California State University, and 24 Hour Fitness.

Exhibit 5 displays the types of sports coaching most in-demand in the LA/OC region, including soccer (132 postings), volleyball (68), and gymnastics (55).

Exhibit 5: Sports listed in job postings for coaches and scouts (last 12 months)

Soccer (132 postings)	Basketball (41 postings)
Volleyball (68 postings)	Tennis (24 postings)
Gymnastics (55 postings)	Baseball (23 postings)
Swim (45 postings)	Cheerleading (20 postings)

Educational Attainment

The Bureau of Labor Statistics (BLS) lists a bachelor's degree as the typical entry-level education for *coaches and scouts*. National-level educational attainment data indicates that 34% of workers in the field have completed some college, no degree/associate degree or less.

Educational Supply

Community College Supply – Exhibit 6 shows the annual and three-year average number of awards conferred by community colleges in Coaching (TOP 0835.60). The community college with the most completions in the region is Santa Monica.

Exhibit 6: Regional community college awards (certificates and degrees), 2018-2021

Non-Community College Supply – For a comprehensive regional supply analysis, it is important to consider the supply from other institutions in the region that may provide training programs for *coaches and scouts*. Exhibit 7 shows the annual and three-year average number of awards conferred in relevant programs. Due to different data collection periods, the most recent three-year period of available data is from 2017 to 2020. Between 2017 and 2020, non-community college institutions in the region conferred an average of 159 awards.

Exhibit 7: Regional non-community college awards, 2017-2020

CIP	Program	Institution	2017-18 Awards	2018-19 Awards	2019-20 Awards	3-Year Average
