

Business and Information Technology Systems (BITS) and Health, Human and Public Services (HHPS)

Advisory Committee

October 24, 2018

Minutes for Breakout Session – Business and Information Technology Systems (BITS)

Business Administration (Business, Management, Marketing, Real Estate, & Accounting)

SAS 101

- Call to order – 5:05pm
- Approval of Meeting Minutes – April 25, 2018 1st Patty & 2nd Karina All in favor
- Program/Curriculum
 - Facilities Management Program
 - 2 Courses: Project Management & Facilities Management
- Pushing through with new curriculum with new courses
- Project management and facility management in Moreno Valley College added to the certificate.
- Have to be allowed to get through the program in 2 years.
- Many are agreeing it's a good idea to add these programs to the certificates.
- 5 courses already offered adding 2 more. Depends on the demand from the students.
 - Simulator/Screens for Large Construction Equipment
- All in motion for development, Vanessa Vizard, and Gabriella Guzman, & all in favor!
- Large construction simulators equipment? Looking into? Yes, but looking at cost vs demand. Internship should take into consideration what the liability could be. Benefits, the advances in technology are not as rapid, with this kind there would be more of a longevity for this equipment. Very expensive products as well.
- Sponsors for the equipment are being looked into now. What are the entry level positions that are available, with the certificates without the training?

- News from Industry - Social media 80/20 changed wants companies to talk about themselves. CBU flexibility is a great option for school, with online courses. (IT) Paying less attention on resumes and more on face to face. Real Estate interest rate going up by 5%. (more in depth on other page- see industry questions)
- News from Moreno Valley College
- Industry Questions
- Wrap-up
- Adjournment - 6:35pm
