

To Whom It May Concern:

This letter is in support of the Ventura Community College T-Ten program. This program prepares graduates to be qualified employees and the program meets our needs and the needs of the Lancaster community.

This program is a perfect fit for the community; allowing the Ventura Community College the opportunity to take the requirements of business, develop curriculum that meets those requirements, and provide the necessary skills training to our current and future workforce. In addition, it should be noted that these jobs provide family sustaining wages and with the continued growth in the field in Pennsylvania, I can only assume that the demand for skilled technicians will increase in years to come. It is imperative that our Community Colleges have the necessary resources, materials and equipment to train workers in this field and is greatly necessary to provide the best opportunities for students attending our career and technical schools.

Sincerely,

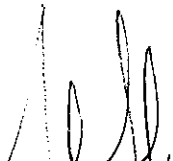

A handwritten signature in black ink, appearing to be the name 'J. M.', is located at the bottom left of the page.
