Program Endorsement Brief: 0505.00/Business Administration Business Administration Associate in Arts - Online<br>Orange County Center of Excellence, May 2020

## Summary Analysis

The Orange County Center of Excellence for Labor Market Research (COE) prepared this report to provide Los Angeles/Orange County regional labor market supply and demand data related to four middle-skill occupations: Administrative Services Managers (11-3011), First-Line Supervisors of Retail Sales Workers (41-1011), First-Line Supervisors of Non-Retail Sales Workers (41-1012), and Sales Representatives, Wholesale and Manufacturing, Except Technical and Scientific Products. Middle-skill occupations typically require some postsecondary education, but less than a bachelor's degree. ${ }^{1}$ This report is intended to help determine whether there is demand in the local labor market that is not being met by the supply from community college programs that align with the relevant occupations.

Based on the available data there appears to be a supply gap for these middle-skill business administration occupations in the region. Therefore, the COE endorses this proposed program. Reasons include:

## Demand:

- Over the next five years, there is projected to be $\mathbf{1 6 , 3 7 4}$ jobs available annually in the region due to retirements and workers leaving the field, which is more than the 6,510 awards conferred annually by educational institutions in the region.
- The national-level educational attainment data indicates between $\mathbf{3 0 . 7} \%$ and $\mathbf{3 8 . 7} \%$ of workers in the field have completed some college or an associate degree.
- However, of the $33 \%$ of middle-skill business administration job postings listing a minimum education requirement in Los Angeles/Orange County, 88\% $(19,023)$ requested a high school diploma.
- Typical regional entry-level hourly wages vary by occupation for these middle-skill business administration occupations and are between $\$ 13.66$ and $\$ 38.02$.
- Regional entry-level wages for two of these occupations (Administrative Services Mangers and Sales Representatives [\$38.03], and Wholesale and Manufacturing, Except Technical and Scientific Products [\$17.96]) are higher than the California Family Needs Calculator hourly wage (living wage) for one adult in the region (\$15.04 in Los Angeles County and \$17.36 in Orange County). ${ }^{2}$

[^0]- Typical regional entry-level wages for First-Line Supervisors of Retail Sales Workers (\$13.66) are below the living wage in both counties.
- Typical regional entry-level wages for First-Line Supervisors of Non-Retail Sales Workers (\$16.82) are below the living wage in Orange County (\$17.36).
- Experienced middle-skill business administration workers can expect to earn regional wages between $\$ 24.95$ and $\$ 65.35$, which is higher than the living wage estimate for both counties.

## Supply:

- There are 27 community colleges in the region that offer business administration, sales and/or display programs, conferring an average of 6,422 awards annually between 2016 and 2019.
- Between 2014 and 2017, there were an average of $\mathbf{8 8}$ awards conferred annually in related training programs by non-community college institutions colleges throughout the region.

## Occupational Demand

Exhibit 1 shows the five-year occupational demand projections for these middle-skill business administration occupations. In Los Angeles/Orange County, the number of jobs related to these occupations is projected to decrease by $2 \%$ through 2024 . However, there will be nearly 16,400 job openings per year through 2024 due to retirements and workers leaving the field.

This report includes employment projection data by Emsi which uses EDD information. Emsi's projections are modeled on recorded (historical) employment figures and incorporate several underlying assumptions, including the assumption that the economy, during the projection period, will be at approximately full employment. To the extent that a recession or labor shock, such as the economic effects of COVID-19, can cause long-term structural change, it may impact the projections. At this time, it is not possible to quantify the impact of COVID-19 on projections of industry and occupational employment. Therefore, the projections included in this report do not take the impacts of COVID-19 into account.

## Exhibit 1: Occupational demand in Los Angeles and Orange Counties ${ }^{3}$

| Geography | 2019 Jobs | 2024 Jobs | $\mathbf{2 0 1 9 - 2 0 2 4}$ <br> Change | $\mathbf{2 0 1 9 - 2 0 2 4}$ <br> \% Change | Annual <br> Openings |
| :--- | :---: | :---: | :---: | :---: | :---: |
| Los Angeles | 115,815 | 112,776 | $(3,039)$ | $(3 \%)$ | 11,988 |
| Orange | 42,066 | 41,546 | $(520)$ | $(1 \%)$ | 4,386 |
| Total | 157,881 | 154,322 | $(3,559)$ | $(2 \%)$ | $\mathbf{1 6 , 3 7 4}$ |

Wages-Typical regional entry-level hourly wages for middle-skill business administration occupations are between $\$ 13.66$ and $\$ 38.02$. Regional entry-level wages for two of these occupations (Administrative Services Mangers [\$38.02], and Sales Representatives, Wholesale

[^1]and Manufacturing, Except Technical and Scientific Products [\$17.96]) are higher than the California Family Needs Calculator hourly wage (living wage) for one adult in the region (\$15.04 in Los Angeles County and \$17.36 in Orange County). Regional entry-level wages for First-Line Supervisors of Non-Retail Sales Workers are $\$ 16.82$, which is below the living wage in Orange County, but above the living wage in Los Angeles County. Regional entry-level wages for FirstLine Supervisors of Retail Sales Workers are below the living wage in both counties; however, the typical regional median wages for this occupation are $\$ 18.09$, which is above the regional living wage. Experienced workers can expect to earn regional wages between $\$ 24.95$ and $\$ 65.35$, which is higher than the living wage estimates for both counties. Regional average wages are slightly above the average statewide wage of $\$ 31.87$ for these occupations. Wage information, by county, is included in Appendix A.

Job Postings-There were 66,138 online job postings related to middle-skill business administration occupations listed in the past 12 months. The highest number of job postings were for sales representative, account manager, store manager, assistant store manager, and outside sales representative. The top skills were: sales, customer service, retail industry knowledge, sales goals, and scheduling. The top three employers, by number of job postings, in the region were: SENTEXT Solutions, Sprint Corporation, and Spectrum. Of the 66,138 online job postings, 33\% list a minimum education requirement.

It is important to note that the job postings data included in this section reflects online job postings listed in the past 12 months and does not yet demonstrate the impact of COVID-19. While employers have generally posted fewer online job postings since the beginning of the pandemic, the long-term effects are currently unknown.

Educational Attainment-The Bureau of Labor Statistics (BLS) lists a bachelor's degree as the typical entry-level education for Administrative Services Managers, and a high school diploma as the typical entry-level education for Fir5st-Line Supervisors of Retail Sales Workers, First-Line Supervisors of Non-Retail Sales Workers, and Sales Representatives, Wholesale and Manufacturing, Except Technical and Scientific Products. The national-level educational attainment data indicates between $30.7 \%$ and $38.7 \%$ of workers in the field have completed some college or an associate degree. Of the $33 \%$ of middle-skill business administration job postings listing a minimum education requirement in Los Angeles/Orange County, $88 \%(19,023)$ requested a high school diploma and $12 \%(2,555)$ requested an associate degree.

## Supply

Community College Supply-Exhibit 2, on the following page, shows the three-year average number of awards conferred by community colleges in the related TOP codes: Business Administration (0505.00), Sales and Salesmanship (0509.40), and Display (0509.60). The colleges with the most completions in the region are: Pasadena, Coastline, Citrus, and Orange Coast. Over the past 12 months, there were no other related program recommendation requests from regional community colleges.

Non-Community College Supply-lt is important to consider the supply from four-year institutions in the region that provide training programs for middle-skill business administration occupations. Exhibit 3 shows the annual and three-year average number of awards conferred by these institutions in the related Classification of Instructional Programs (CIP) Code: Business Administration and Management (52.0201). Due to different data collection periods, the most recent three-year period of available data is from 2014 to 2017. Between 2014 and 2017, four-year colleges in the region conferred an average of 88 awards annually in related training programs.

May 2020

[^0]:    ${ }^{1}$ The COE classifies middle-skill jobs as the following:

    - All occupations that require an educational requirement of some college, associate degree or apprenticeship;
    - All occupations that require a bachelor's degree, but also have more than one-third of their existing labor force with an educational attainment of some college or associate degree; or
    - All occupations that require a high school diploma or equivalent or no formal education, but also require short- to long-term on-the-job training where multiple community colleges have existing programs.
    ${ }^{2}$ Living wage data was pulled from California Family Needs Calculator on 5/4/2020. For more information, visit the California Family Needs Calculator website: https://insightcced.org/2018-family-needs-calculator/.

[^1]:    ${ }^{3}$ Five-year change represents new job additions to the workforce. Annual openings include new jobs and replacement jobs that result from retirements and separations.
